## ABOUT ME

+

Name: Maeglyn Davies  
Date of Birth: 30th Sep, 1999  
Nationality: English

## EXPERIENCE

+

FRONT / BACK  
END WEB DEV  
(AUG 2018)

## Col8 Tech StartUp - UK

During my time at Col8 I designed and maintained an application which allows for uploading location based videos to be either encoded or uploaded raw to our servers. I also designed a webpage which utilised multiple API's to display an example of the product. Languages and skills used included: JS, NodeJs, Electron, Photoshop, CSS and more.

## MY SKILLS

+

[illegible]

**STORE MANAGER**  
(JAN 2017)

## Services

During my teenage years I worked in a variety of service jobs for both experience and profit. For a 3 month period I worked at Subway, which gave me some fantastic, hands-on, fast paced insight into the inner workings of a business. It also taught me the value of interpersonal relationships and help me better myself as an individual

# WHO AM I?

+

I'm an advanced front-end developer with 2+ years of hands on experience in creating mobile-first high-performance sites with an emphasis on UI / UX. I'm able to apply my skill-set to various challenging issues and am not limited to the front-end domain. I can adapt to changes in environment easily and have no problem working with different OS's, IDE's, CMS's and languages. Most importantly my expertise is not confined within my designated role. Need some work done on your API? No problem. Backend problems that need solving fast? I've got you covered.
